

MINION ME USER MANUAL

By: Wahu Ngugi 18/03030

ABSTRACT

This document is a guide for Minion Me users.

user

For Clients and Minions

Disclaimer

This User Manual has been prepared to guide users on how to use the Minion Me system. The information provided is accurate to the best of the developer's knowledge at the time of writing. However, features and system interfaces may be updated or changed as the project improves.

The developer is not responsible for any loss, damage, or misunderstanding resulting from misuse of the system or reliance on this manual alone.

By using this guide, the user agrees to use the Minion Me system responsibly and in accordance with its intended purpose.

Preface

This User Manual has been prepared to guide users in understanding and using the Minion Me website effectively. It provides instructions on the main features, user workflows, and general system operations for the current release of the software.

This manual should be read together with other related project documents, where applicable, such as the Software Requirements Specification, System Design Document, and Test Documentation. All references made in this guide apply to the current release version of the Minion Me system unless otherwise stated.

How to Use This Guide

This guide is organized into sections that describe the system overview, user roles, functional features, and step-by-step instructions for performing tasks within the platform. Users are encouraged to follow the sections in sequence when learning the system for the first time, and later use the manual as a reference when performing specific tasks.

Screenshots and examples may be included throughout the document to make navigation and system usage easier to understand.

System Overview

Minion Me is a service marketplace platform that connects clients with skilled service providers. The system allows users to register, log in, browse available services, book providers, manage profiles, and track service requests.

Intended Users

This manual is intended for:

- Clients seeking services
- Service providers offering services

System Requirements

To use the Minion Me system effectively, the following minimum requirements should be met.

Hardware Requirements

The user should have access to a computer, laptop, tablet, or smartphone with:

- at least 2 GB RAM
- at least 500 MB free storage space
- a stable keyboard or touchscreen input
- an active internet connection

Software Requirements

The Minion Me system is web-based and accessible via a standard web browser. The recommended browsers include:

- Google Chrome
- Mozilla Firefox
- Microsoft Edge
- Safari

Users are advised to use the latest version of their browser for the best performance and security.

Operating System Requirements

The system can run on devices using:

- Windows 10 or later
- macOS
- Linux
- Android
- iOS

Network Requirements

To access Minion Me, the user must have:

- a stable internet connection
- access to the system URL provided by the developer

A slow or unstable internet connection may affect page loading, login, booking, and other system functions.

Display Requirements

For the best user experience, a screen resolution of at least 1024×768 is recommended. On mobile devices, the system should be accessed on a modern browser with responsive display support.

User Requirements

To interact with the system, the user should:

- have basic computer or smartphone navigation skills
- be able to enter and submit information through forms
- have a valid email address for account registration and communication purposes

How-To Tasks

This section provides step-by-step instructions on how to perform the main tasks in the Minion Me system. The procedures are written to help users complete common activities easily and correctly.

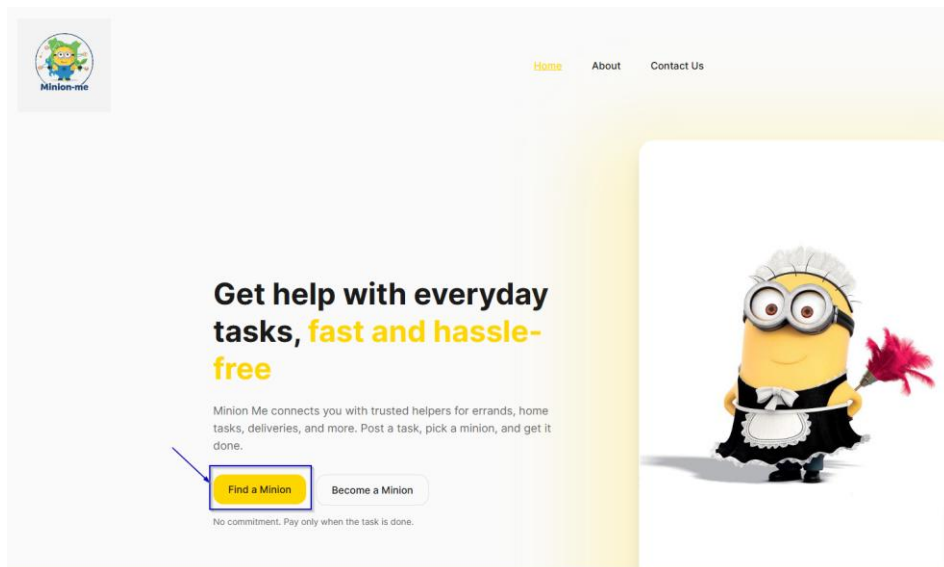

How a Client Registers an Account

Purpose:

This procedure explains how a client can create an account in the Minion Me system

Steps:

1. Open the Minion Me system in your web browser.
2. On the homepage, click the ***Find a Minion*** button.

3. Enter the required details such as first name, last name, email address, phone number, location, and password.

The image shows a registration form titled "Get Help" in blue. Below the title is the subtitle "Find a reliable minion to get things done." The form contains several input fields: "First Name *" with the value "Jane", "Last Name *" with the value "Doe", "Email Address *" with the value "jane@example.com", "Phone Number" with the value "+254 7XX XXX XXX", "Location" with the value "Nairobi, Kenya", and "Password *" with masked characters "*****". At the bottom of the form is a blue button labeled "Create Account". Below the button is a link that says "Already have an account? Log in". The entire form is set against a light yellow background.

4. Review the information entered.
5. Click the Create Account button.

Expected result:

The system creates a new client account and redirects the user to the login page, verification page, or client dashboard.

How a Minion Registers an Account

Purpose:

This procedure explains how a minion can create an account in the Minion Me system in order to offer services on the platform.

Steps:

1. Open the Minion Me system in your web browser.
2. On the homepage, click the ***Become a Minion*** button.

Get help with everyday tasks, fast and hassle-free

Minion Me connects you with trusted helpers for errands, home tasks, deliveries, and more. Post a task, pick a minion, and get it done.

Find a Mission

Become a Minion

No commitment. Pay only when the task is done.

3. Enter the required details such as first name, last name, email address, phone number, location, password, and any service-related details required by the system.

Become a Minion

Turn your skills into opportunities. Help people. Get paid.

First Name *

Briefly describe your experience

Create Password *

Apply to Become a Minion

4. Review the information entered.

5. Click the ***Apply to Become a Minion*** button.

Expected result:

The system creates a new minion account and redirects the user to the login page.

How to Log In as a Client

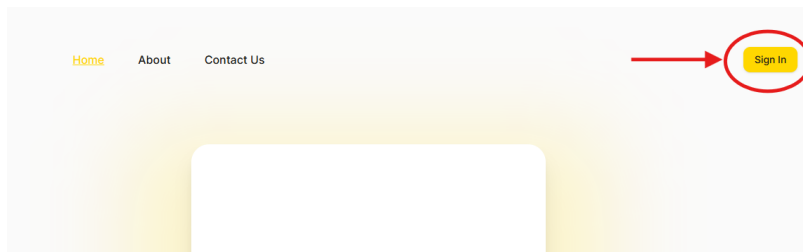

Use this procedure when you want to access the client side of the Minion Me system and manage bookings, profile details, and service requests.

You need a registered client email address and password.

After successful login, the system opens the client dashboard.

Steps

1. Open the Minion Me system in your web browser.
2. On the home page, click Sign in.

3. Enter your registered email address.
4. Enter your password.
5. Click Log In.

The image shows a login form titled "Welcome Back" in blue. Below the title is the text "Log in to get help or manage your minion life". There are two input fields: "Email" with the value "you@example.com" and "Password" with masked characters "*****". A blue "Log In" button is below the password field. At the bottom, there are two links: "Forgot client password?" and "Forgot minion password?" in blue, and a link "Don't have an account? Sign up" in blue.

Expected Result

The system verifies your login details and redirects you to the client dashboard.

- If the login details are correct, the client dashboard opens.
- If the login details are incorrect, the system displays an error message and asks you to try again.

How to Log In as a Minion

Use this procedure when you want to access the minion side of the system to manage services, requests, and availability.

You need a registered minion email address and password.

If successful, the system opens the minion dashboard.

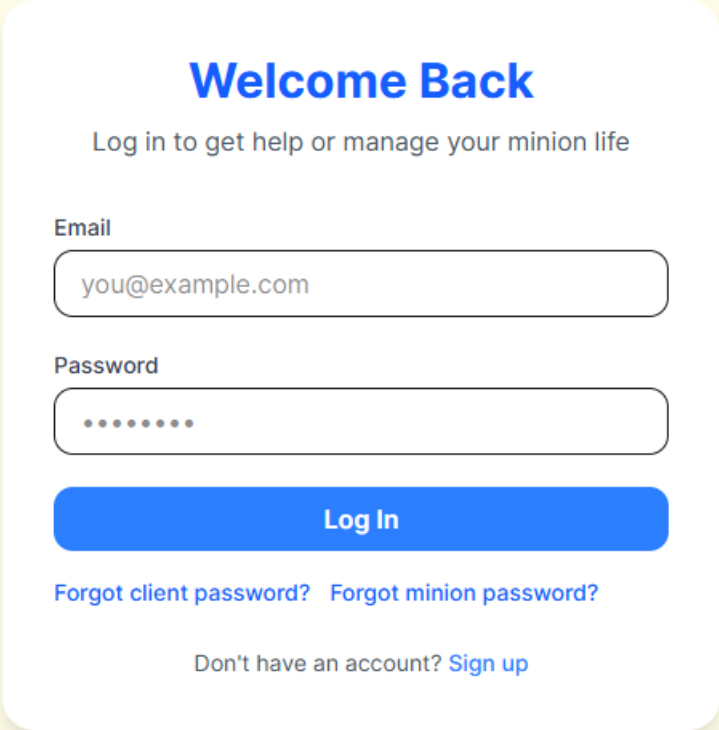

Steps

1. Open the Minion Me system in your web browser.
2. On the home page, click Sign in.
3. Enter your registered email address.
4. Enter your password.
5. Click Log In.

Expected Result

The system verifies your details and redirects you to the minion dashboard.

- If the details are valid, the minion dashboard opens.
- If the details are invalid, the system displays an error message.

The image shows a login interface with a light yellow background. In the center is a white rounded rectangle containing the following elements:

- Welcome Back**: A blue heading.
- Log in to get help or manage your minion life**: A subtitle in gray.
- Email**: A label above a text input field containing "you@example.com".
- Password**: A label above a password input field with eight dots.
- Log In**: A blue button with white text.
- Forgot client password? Forgot minion password?**: Two blue links.
- Don't have an account? Sign up**: A blue link.

How a Client Books a Service

Use this procedure when you want to request a service from a minion through the Minion Me platform.

You need a client account and the service details you want to book.

If successful, the system creates a booking request.

Steps

1. Log in to the Minion Me system using your client account credentials.
2. Wait for the Client Dashboard to load.

3. On the dashboard, locate the Quick Actions section.
4. Click the Browse Minions button.
5. View the list of available minions displayed by the system.
6. Select the minion or service that matches your needs.
7. Review the minion details carefully, such as skills, service description, pricing, or availability.
8. Click the appropriate option to continue with the booking or hiring process.
9. Enter the task details required by the system, such as:
 - task title
 - task description
 - location
 - date or deadline
 - budget
10. Review the details you have entered.
11. Click Submit, Book, Hire, or the relevant confirmation button shown by the system.
12. Wait for the confirmation message of the Minion accepting the task.

Tips for Getting Tasks Done

- ✓ Be specific and detailed in your task descriptions for better results
- ✓ Set a fair budget to attract quality, reliable minions
- ✓ Review applications carefully and check minion profiles before accepting
- ✓ Communicate clearly with your minion about task expectations

Post a Task module

Post a Task

Tell us what you need help with and find the perfect minion for the job.

Task Title *

e.g., Deep clean my 2-bedroom apartment

Task Description *

Provide details about what needs to be done, any specific requirements, tools needed, etc.

Be as specific as possible to get better matches

Category *

Select a category

Location

e.g., Westlands, Nairobi

Budget (KSh) *

2500

Set a fair price to attract quality minions

Post Task

Cancel

Tips for posting tasks:

- Be clear and specific about what needs to be done
- Mention any tools or materials the minion should bring
- Set a realistic budget based on the task complexity
- Include your availability or preferred time

View Profile

Post a Task

Important note

Because your dashboard also has Post a Task and My Tasks, your system may support two possible booking flows:

- browsing minions first, then booking one
- posting a task first, then waiting for minions to respond

How a Minion Uses the System

How a Minion Navigates the Dashboard

This procedure explains how a minion accesses and uses the dashboard after logging in.

Input

The minion must have a registered account and valid login credentials.

Output

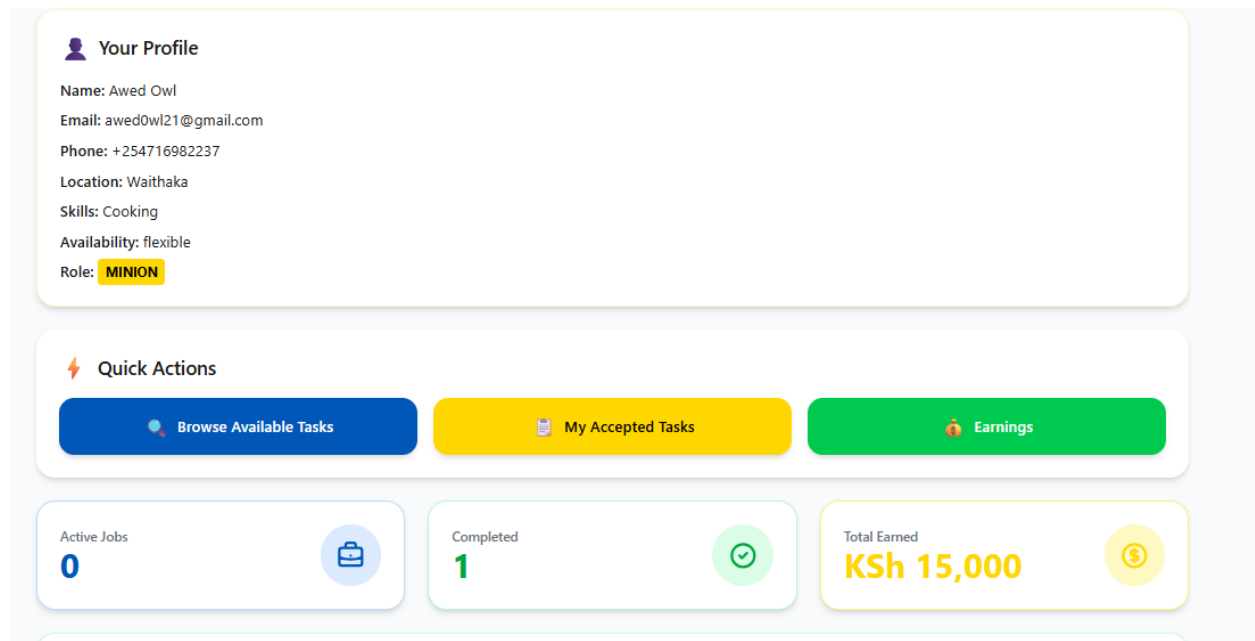

The system displays the minion dashboard with profile details, quick actions, and job statistics.

Steps

1. Open the Minion Me system in a web browser.
2. Enter your login credentials on the minion login page.
3. Click Sign In.
4. Wait for the dashboard to load.
5. View the Your Profile section to confirm your details such as name, email, phone number, location, skills, availability, and role.
6. Review the Quick Actions section.
7. Use the available buttons to perform different tasks:
8. Browse Available Tasks to search for jobs
9. My Accepted Tasks to track assigned work
10. Earnings to view income details
11. Review the summary cards showing:
 - Active Jobs
 - Completed Jobs
 - Total Earned
12. Read the Tips for Success section for guidance on improving performance.

Expected Result

The minion dashboard opens successfully and displays all main account details and action buttons.

How a Minion Browses Available Tasks

This procedure explains how a minion can search and view available tasks posted by clients.

Input

The minion must be logged into the system.

Output

The system displays available task listings that match the selected filters or search terms.

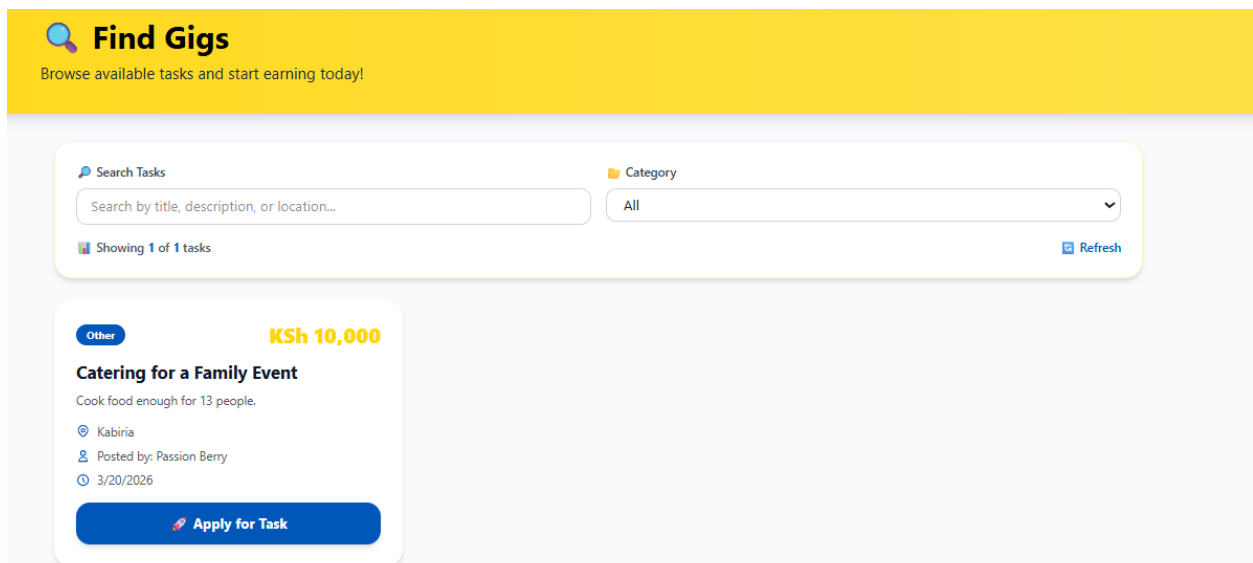

Steps

1. Log in to the Minion Me system as a minion.
2. On the dashboard, go to the Quick Actions section.
3. Click Browse Available Tasks.
4. Wait for the Find Gigs page to open.
5. Use the Search Tasks field to search by title, description, or location.
6. Use the Category drop-down menu to filter tasks by category.
7. Click Refresh if you want to reload the available tasks.
8. Review the displayed task cards.
9. Read the task details carefully, including:

- category
- budget
- title
- description
- location
- client name
- date posted

Expected Result

The system displays available jobs that the minion can review and apply for.

How a Minion Applies for a Task

This procedure explains how a minion submits an application for a job posted by a client.

Input

The minion must be logged in and have selected an available task.

Output

The system records the task application and adds it to the minion's jobs list.

Steps

1. Open the Find Gigs page.

2. Search or filter until you find a suitable task.
3. Read the task details to confirm that the job matches your skills and availability.
4. Click the Apply for Task button on the selected task card.
5. If prompted, enter any required application message or additional details.
6. Review the information entered.
7. Submit the application.
8. Wait for the system to confirm that the application has been sent.

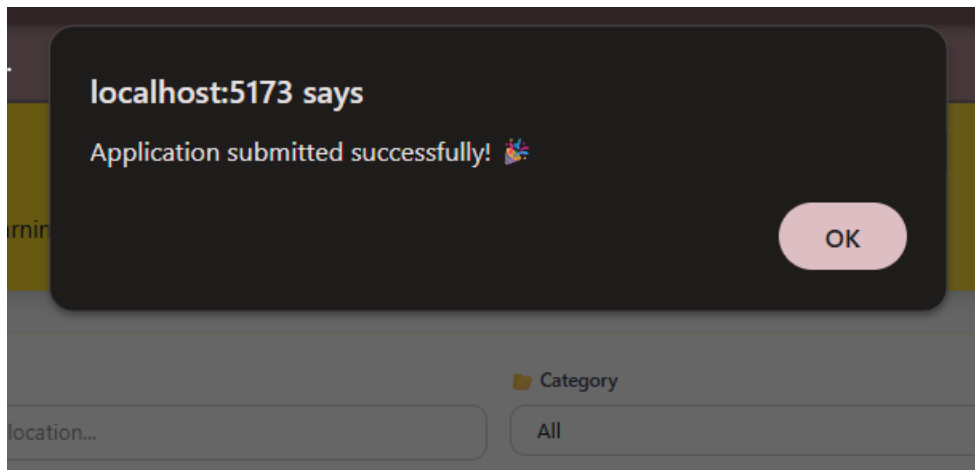

Expected Result

The task application is submitted successfully and is recorded in the system.

Post-Condition

After applying:

- the task may appear under My Accepted Tasks or job tracking sections depending on its status
- the client can review the application
- the minion can later track whether the application is pending, accepted, or rejected

How a Minion Views and Tracks Jobs

This procedure explains how a minion monitors job applications and accepted tasks.

Input

The minion must have applied for or been assigned one or more tasks.

Output

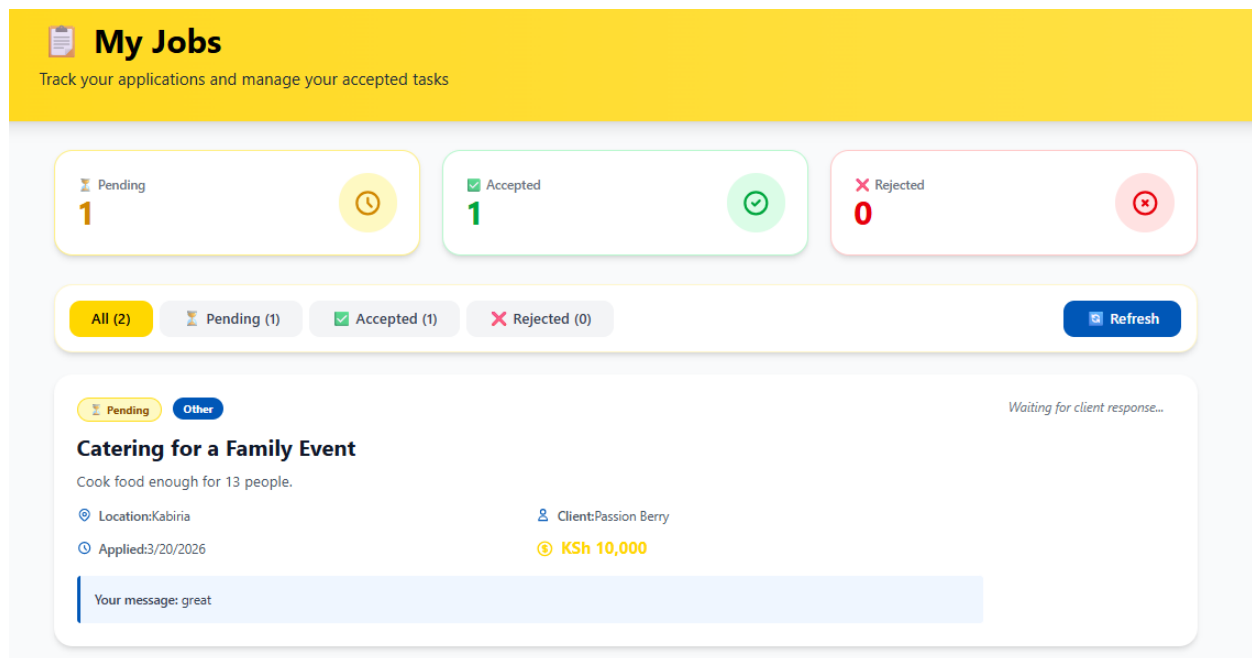

The system displays all jobs and their statuses.

Steps

1. Log in to the Minion Me system as a minion.
2. On the dashboard, click My Accepted Tasks.
3. Wait for the My Jobs page to open.
4. Review the job summary cards at the top of the page:
 - Pending
 - Accepted
 - Rejected
5. Use the filter tabs to sort jobs by status:
 - All
 - Pending
 - Accepted
 - Rejected
6. Click Refresh to update the page.
7. Select a displayed job to view its full details.
8. Review the information shown, such as:
 - job title
 - job description
 - location
 - client name
 - date applied
 - payment amount
 - your submitted message
9. Check the task status shown on the page, for example Accepted or Task completed.

Expected Result

The system displays all tracked jobs and allows the minion to monitor progress by status.

How a Minion Views Payment Information

This procedure explains how a minion checks payment details for a completed or accepted task.

Input

The minion must have an accepted or completed task with payment information recorded.

Output

The system displays payment history related to the selected task.

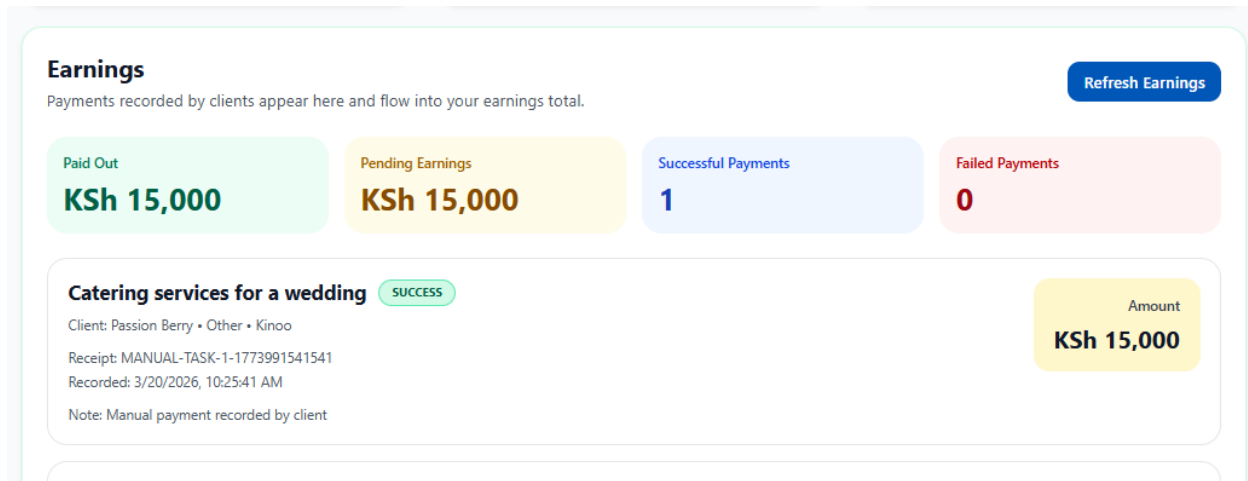

Steps

1. Open the My Jobs page.
2. Select an accepted or completed task from the list.
3. Scroll to the Payment History section.
4. Review the payment details displayed, such as:
 - receipt status
 - amount
 - paid time

5. Confirm whether payment is still pending or has been completed.

Expected Result

The system displays payment information associated with the selected task.

Glossary

Accepted Task

A task application that has been approved and assigned to a minion.

Application

A request submitted by a minion to express interest in carrying out a client's task.

Availability

The time or schedule a minion is free to perform services or tasks.

Booking

The process through which a client requests a service or task through the Minion Me platform.

Browse Minions

A system feature that allows clients to search for and view available minions.

Browse Available Tasks

A system feature that allows minions to search for tasks posted by clients.

Category

A group or classification used to organize services or tasks based on their type.

Client

A registered user who posts tasks, browses minions, and requests services on the platform.

Completed Task

A task that has been marked as finished after the work has been done.

Dashboard

The main page a user sees after logging in, containing profile information, quick actions, and system summaries.

Earnings

The amount of money a minion has received or is expected to receive from completed tasks.

Filter

A tool used to narrow search results based on selected conditions such as category or status.

Find Gigs

The page where minions browse and search for available client tasks.

Gig

A task or job posted on the platform for a minion to complete.

Login Credentials

The email address and password used by a registered user to access the system.

Minion

A registered service provider who browses tasks, applies for jobs, and completes work for clients.

My Jobs

A section where minions can track the status of tasks they have applied for or been assigned.

My Tasks

A section where clients can track the tasks they have posted or booked.

Payment History

A record showing payment details for a task, including amount, receipt status, and payment time.

Pending Task

A task or application that has been submitted but has not yet been accepted or rejected.

Profile

The section of the system that displays a user's personal and account information.

Quick Actions

Shortcuts on the dashboard that allow users to access important features quickly.

Refresh

A function used to reload and update the displayed system information.

Rejected Task

A task application that has not been approved.

Role

The type of account assigned to a user in the system, such as client or minion.

Search Bar

A field used to enter keywords when looking for tasks, services, or minions.

Service

A type of work or assistance offered by a minion through the platform.

Task

A job or request posted by a client for minions to view and apply for.

User Manual

A document that explains how users can operate and navigate the Minion Me system.

Verification

The process of confirming a user's account details, usually during registration or login.
